DEC 6 1990

Docket No. 50-461

Illinois Power Company
ATTN: J. S. Perry
Vice President
Clinton Power Station
Mail Code V-275
P. O. Box 678
Clinton, IL 61727

Gentlemen:

On November 21, 1990, we received Advance Change Notice (ACN) 9/1 to the Clinton Power Station's Emergency Plan. We have reviewed ACN 9/1 and we have determined that it is acceptable and does not degrade the effectiveness of the Emergency Plan.

ACN 9/1 includes several clarifications, information updates, and enhancements to the emergency planning in place for the Clinton Power Station. Minor revisions have been made to the Station Emergency Response Organization (SERO). Clarification has been made regarding the activation of the SERO and the Emergency Support Organization. An improved back-up location for the Operations Support Center has been specified. Improvements have been made to the wording of the criteria for classifying an Unusual Event or Alert for abnormal liquid or gaseous radiological releases. Updated information has been provided on the methods available for communicating with offsite medical facilities.

Should you have any questions, please have your staff contact Mr. T. Ploski of my staff at (708) 790-5634.

Sincerely,

Robert Greger
