Docket No. 030-29348

License No. 29-27862-01

Essex Osteoporosis Diagnostic Center
c/o Clara Maass Medical Center
ATTN: Dr. Melvin Freundlich, Director
1 Franklin Avenue
Belleville, New Jersey 07109

Gentlemen:

Subject: Routine Inspection No. 030-29348/90-001

On October 24, 1990, Mark C. Roberts of this office conducted a routine safety inspection at the above address of activities authorized by the above listed NRC license. The inspection was an examination of your licensed activities as they relate to radiation safety and to compliance with the Commission's regulations and the license conditions. The inspection consisted of observations by the inspector, interviews with personnel, and a selective examination of representative records. In addition, our inspection examined the activities covered in your correspondence dated April 26, 1988. The findings of the inspection were discussed with yourself at the conclusion of the inspection.

Within the scope of this inspection, no violations were identified.

We understand that you no longer possess any licensed material as authorized by this license and that the material you did possess has been transferred to Clara Maass Hospital.

Your letter of April 26, 1988 requested an amendment to the Clara Maass Medical Center License No. 29-03163-03 to receive the material but did not request termination of the Essex Osteoporosis Diagnostic Center License No. 29-27862-01. If you desire to terminate this license, please complete and return the accompanying NRC Form 314, Certificate of Disposition of Materials. If any of our understandings are incorrect, please inform us in writing.

In accordance with Section 2.790 of the NRC's "Rules of Practice", Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the Public Document Room. No reply to this letter is required.
