Gentlemen:

This refers to the telephone conversation on December 4, 1990, between you and Mr. J. R. Mullauer of my staff concerning the proposed decontamination plan dated November 7, 1990. We have no questions concerning the decontamination of your alpha facility at this time. It is our understanding that even though NRC approval is not required to release the area for unrestricted use, you will submit to the NRC Region III Office, for our files, a copy of the final survey that will be performed prior to releasing the laboratory for unrestricted use. If your understanding is different than ours, please immediately notify Bill Schultz of my staff at (708) 790-5526.

Sincerely,

Jack A. Grobe, Chief
