Docket Nos: 50-142  
70-223

Dear Dr. Brown:

This refers to the inspection conducted by Messrs. B. Brock, G. Hamada and Y. Kobori of this office on May 20, 1975 of the activities authorized by NRC License Nos. R-71 and SNM-974. The findings were discussed with you and Mr. J. C. Evraets of your staff at the conclusion of the inspection.

The inspection was an examination of the activities conducted under your licenses as they relate to programs for controlling and accounting for special nuclear material pursuant to applicable provisions of Title 10, Code of Federal Regulations, Part 70, "Special Nuclear Material," and the conditions of your licenses. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspectors.

No items of noncompliance with NRC requirements were identified within the scope of this inspection.

In accordance with Section 2.790(d) of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, documentation of findings of your control and accounting procedures for safeguarding special nuclear materials are exempt from disclosure; therefore, the inspection report will not be placed in the Public Document Room and will receive limited distribution.

Sincerely,

*R. H. Engelken*
