License No. 21-07059-01
Docket No. 030-02066
EA 90-214

Gentlemen:

This refers to the routine safety inspection conducted by Ms. C. C. Casey of this office on November 15 through 26, 1990, of activities authorized by NRC Byproduct Material License No. 21-07059-01 and to the discussion of our findings with you at the conclusion of our inspection.

This also refers to the telephone conference call between you and your attorney, Mr. Jerome Rock, and Mr. John A. Grobe and other members of my staff on November 29, 1990 regarding your intentions to terminate License No. 21-07059-01 at this time. It is our understanding that you will submit a termination request for your Byproduct Material License No. 21-07059-01 promptly upon your receipt of a general license registration certificate, issued pursuant to 10 CFR 31.11. It is also our understanding that you have not performed nuclear medicine patient studies since the date of our inspection on November 15, 1990 and that you will not resume these studies. If your understanding differs from that set forth above, please call this office by telephone at (708) 790-5500 immediately.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, facilities tour, independent measurements, observations and interviews with personnel.

During this inspection, certain of your activities appeared to be in violation of NRC requirements. You will be notified by separate correspondence of our decision regarding enforcement actions based on the findings of the inspection. No written response is required until you are notified of the proposed enforcement action.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosure will be placed in the NRC Public Document Room.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

Charles E. Norelius, Director
Division of Radiation Safety
