MEMORANDUM FOR: Bill M. Morris, Director
 Division of Regulatory Applications
 Office of Nuclear Regulatory Research

FROM: John J. Surmeier, Acting Assistant Director
 for State Agreements Program
 Office of State Programs

SUBJECT: PROPOSED RULEMAKING - REVISION TO PART 34,
 LICENSES FOR RADIOGRAPHY AND RADIATION SAFETY
 REQUIREMENTS FOR RADIOGRAPHIC OPERATIONS

We have reviewed the aforementioned rulemaking package and have not identified any issues that would prevent the rulemaking to proceed. The incorporation of the radiographer certification proposal into the draft revision to 10 Part 34 is an important milestone in the development of comprehensive radiation safety regulations governing industrial radiography. Cheryl Trottier, Donald Nellis, and Mary L. Thomas should be commended on the very fine job they have done revising the rule to make the necessary changes.

If you have further questions, please contact Jim Myers at 504-2328.
