Gentlemen:

In the Matter of) Docket Nos. 50-260
Tennessee Valley Authority)

BROWNS FERRY NUCLEAR PLANT (BFN) - TVA BFN UNIT 2 APPENDIX R SAFE SHUTDOWN PROGRAM

The purpose of this letter is to submit the current BFN Unit 2 Safe Shutdown Program (Enclosure). The program was initially submitted to NRC on April 14, 1989. In reviewing this submittal, NRC raised a concern pertaining to fire watches. The concern is documented in an NRC Safety Evaluation Report, dated November 3, 1989. Based on follow-up discussions, TVA changed the program and submitted the change to NRC on January 30, 1990. However, this change did not resolve the NRC concern in the conduct of fire watches. Accordingly, TVA agreed to an additional change to the program. The enclosure supersedes the BFN Safe Shutdown Program which was submitted on April 14, 1989. This change has been made and is depicted by revision bars in the right margin in the enclosure.

If you have any questions, please contact Patrick P. Carrier, Manager of Site Licensing, at (205) 729-3570.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
