Substitution Page for Change 2 to Revision 18
of the Physical Security Plan

Gentlemen:

On April 19, 1994, in a conversation between Leroy Norderhaug (NRC Region IV Walnut Creek Field Office) and Larry Fisher (Diablo Canyon Security), it was agreed that PG&E would resubmit a change page for Change 2 to Revision 18 of the Physical Security Plan (PSP), which was submitted by PG&E Letter DCL-93-288, dated December 30, 1993. This change page is being resubmitted for clarification purposes only and does not decrease the safeguards effectiveness of the PSP.

The line spacing of the subject PSP page was changed to accommodate the necessary additional wording without affecting pagination of the remainder of the chapter. The line spacing of the page will be changed back to the original spacing at the next full revision (Revision 19), or when this page is next changed in such a manner to allow reformatting.

The enclosure to this letter contains safeguards information and must be protected in accordance with 10 CFR 73.21.

Sincerely,

Gregory M. Rueger
