MIDLAND NUCLEAR COGENERATION PLANT
MIDLAND DOCKET NO 50-329, 50-330
AMENDMENT 108
FILE: 0485.11, B13.6 SERIAL: 18867

Enclosed herewith is Amendment 108 to the Company's application for construction permits and operating licenses containing three (3) signed originals and five (5) controlled copies of: (1) Revision 6 to the Midland Plant Security Plan; and (2) Revision 3 to the Safeguards Contingency Plan.

The previous revision to the Security Plan, Revision 5, was issued by our correspondence Serial 18792 dated August 24, 1982, and it contained written text changes which responded to the Staff's safety evaluation review comments forwarded by the NRC's correspondence of June 1, 1982. To supplement the written text changes of Revision 5 submitted earlier, we are forwarding the enclosed drawing revisions which constitute Revision 6 to the Security Plan. In addition to the drawing revisions, one additional text revision has been included in Revision 6 to respond to an added review concern identified by the Staff.

Revision 3 to the Safeguards Contingency Plan is enclosed to forward revisions to one of the same drawings as is attached to the Security Plan. This drawing is being revised for the same reasons explained above for the Security Plan drawings.

Please note that while not all the enclosed drawings included with Revision 6 have been actually revised, we are including them in this amendment for ease of page replacement in the Security Program binder. All drawings presently

contained in the Security Plan and Safeguards Contingency Plan can be discarded, therefore, and replaced by those drawings enclosed.

Since the two attached documents contain safeguards information within the meaning of 10 CFR 73.21(b), we are requesting that the enclosed information be withheld from public disclosure pursuant to 10 CFR 72.21(c)(1) and (c)(2).

A handwritten signature in black ink that reads "James W. Cook". The signature is written in a cursive style with a large, sweeping initial "J".
