License # 20-12869-01

October 2, 1990

Mohamed M. Shanbaky, Chief  
Nuclear Materials Safety Section A  
Division of Radiation Safety  
and Safeguards  
Nuclear Regulatory Commission  
Region 1  
475 Allendale Road  
King of Prussia, Pennsylvania 19406

Dear Mr. Shanbaky:

Your letter of September 25, 1990 indicates a need to address preventative actions regarding the inspection on June 27, 1990. The day following the inspection an In-Service meeting was held to instruct all of the nuclear medicine technologists. A record of this meeting with attendance is retained in our In-Service log.

To insure continued compliance the Radiation Safety Officer routinely inspects the records of the necessary site monitoring, dose calibrator constancy checks and byproduct storage. Records of the inspection are kept. I am unaware of further preventative action that could be taken and hope this meets the Commission's requirements.

Sincerely:

Jeffrey Kelly  
Associate Vice President  
Professional Services

Melvin H. Farmelant, M.D., Chairman  
Radiation Safety Committee & RSO
