

COOPER-BESSEMER RECIPROCATING

November 27, 1990

Our File: QCG-7682

Mr. Uldis Potapovs, Acting Chief
Vendor Inspection Branch
Division of Reactor Inspection
and Safeguards
Office Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D C 20555

Subject: NRC Inspection Report No. 99900' .1/90-0'

Dear Mr. Potapovs:

Thank you for the above report and letter of transmittal which arrived November 27, 1990.

One of the two nonconformances identified concerns the C-B process for classifying diesel engine parts for safety related service. The resolution to this will require some considerable effort to establish an action plan, and therefore we request an extension of the response date to January 31, 1991.

Your report is an extensive one and the authors are to be complimented for the in-depth knowledge of our operation exhibited. Having participated in vendor surveys/audits I can readily appreciate the skills your representatives brought with them, and used, to produce such a fine report.

Very truly yours,

W. H. A. Lambert
Manager, Quality Assurance
and Nuclear Operations
