

OCT 27 1982

Docket No. 50-358

Cincinnati Gas and Electric
Company

ATTN: Mr. Earl A. Borgmann
Senior Vice President
Engineering Services and
Electric Production

139 East 4th Street
Cincinnati, OH 45201

Gentlemen:

NRC Region III has been advised of allegations that relevant documentation on the welders at the Zimmer site was prepared for, or reviewed at, a meeting between Cincinnati Gas and Electric Company (CG&E) and H. J. Kaiser (HJK) held on July 8, 1982, but that such documentation was not discussed with, or made available to, Region III at a meeting on this subject held on July 9, 1982 among CG&E, HJK and Region III. Substantial documentation was made available to Region III in connection with the July 9 meeting, but additional relevant documentation was allegedly not made available. The matter of the existence of such documentation was informally discussed on October 15 and 20, 1982, between Messrs. B. R. Sylvia of CG&E and R. F. Warnick and D. R. Hunter of NRC Region III. Further information is required to resolve these concerns and, if these concerns are found to be valid, to determine whether enforcement action, including modification, suspension, or revocation of your license, is warranted.

Accordingly, pursuant to Section 182 of the Atomic Energy Act and 10 CFR 50.54(f) of the Commission's regulations, you are required to submit under oath and in writing within 20 days of the date of this letter a list of all reports or other documentation prepared by CG&E's or HJK's document reviewers or other personnel in preparation for the meetings of July 8 and/or 9, 1982, or reviewed at those meetings. Copies of any such reports and documents which have not previously been made available to Region III should be made available at the Zimmer site for inspection by the NRC. If no reports or documentation other than that already made available to Region III were prepared for these meetings, your submittal should so state.
