Subject: Braidwood Nuclear Power Stations Units 1 and 2
Braidwood Station Security Plan
NRC Docket Nos. 50-456 & 50-457
TAC Nos. 65275/65276

Enclosed are the original and three (3) copies of Revision 32 of the Braidwood Nuclear Power Station Security Plan. Revision 32 identifies the addition of an Equipment Access Point at the Lake Screen House.

Revision 32 is being submitted knowing that Revision 31 has not been docketed and has been delayed due to the changes necessary in response to LaSalle Nuclear Station's submittal of Revision 49.

Pursuant to 10CFR 50.54(p), the signed original and three copies of the security plan revisions are being provided to your office. A copy of this letter and two copies of the security plan revisions are being sent to Region III.

We have concluded that these changes do not decrease the safeguards effectiveness of the plan. These enclosures contain Safeguards Information which must be protected from public disclosure pursuant to 10CFR 73.21.

Sincerely,

for Irene M. Johnson
Licensing Operations Manager
