Mr. Bart D. Withers
Vice President Nuclear
Portland General Electric Company
121 S.W. Salmon Street
Portland, Oregon 97204

Dear Mr. Withers:

We have completed our review of your letters of April 30, 1980 and March 17, 1982 which responded to IE Bulletin 80-04, "Analysis of a PWR Main Steam Line Break with Continued Feedwater Addition".

As set forth in more detail in the enclosed Safety Evaluation (SE) and its attached Technical Evaluation Report (TER), your responses acceptably resolve the concerns of the Bulletin, and therefore this matter is considered closed for the Trojan Nuclear Plant.

Sincerely,

Original signed by
Robert A. Clark
