Subject: Radioactive Materials Packaging

Dear Mr. Gibbons,

We have enclosed a copy of the correspondence regarding our request for authorized use of radioactive materials packaging which was sent to the Office of Materials Safety and Safeguards this date. Thank you for your kind assistance.

Also enclosed is a copy of our license conditions dated 12 August 1993. Please note that on page 2, Item 3 a of that document, we are required to notify the NRC in writing within 30 days of a change in the name of our RSO.

I contacted Paul Retzlaff at his new employer after our conversation and he vividly remembers getting the "30 day criteria" from that document. We wish to bring this to your attention only to emphasize our earnest attempts to comply with all the rules and regulations.

Again, we wish to thank you for your inspection. It has heightened our awareness of the need to carefully assess the state of our license compliance. We also thank you for the current copies of the Information Notices and Regulatory Guides you left with us.

Yours truly,

Gary Marquardt
Corporate Director

United States Nuclear Regulatory Commission
Director, Office of Nuclear Material Safety and Safeguards
Washington, DC 20555

Regarding: Quality Assurance Program Approval 0656

Docket Number: 71 - 0656

Sir;

It has been brought to our attention that in applying for the Quality Assurance Program Approval, we neglected to identify the radioactive material packages we intend to use.

To correct this oversight, we are herewith requesting authority to use packages identified by the following USNRC Certificates of Compliance:

9032 Revision 4

9033 Revision 5

9035 Revision 9

9056 Revision 9

9157 Revision 5

Please advise if this information must be added to our Quality Assurance Program manual, or of any other administrative measures that are necessary to achieve full compliance.

Yours truly,

Gary Marquardt
Corporate Director
