Gentlemen:

SUBJECT: EXAMINATION REPORT NOS. 50-317/90-21; 50-318/90-20 (OL)

On October 29 and 30, 1990, the NRC administered initial examinations to two reactor operator and one senior reactor operator candidates from your company who were applying for licenses to operate the Calvert Cliffs Nuclear Power Plant. Two of the three individuals passed all portions of their examinations and will be issued licenses. One of the reactor operators failed the simulator portion of the examination and his license application will be denied.

At the conclusion of the examination, generic issues that evolved as a result of the examination were discussed with those members of your staff identified in the enclosed report.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosure will be placed in the NRC Public Document Room.

Should you have any questions regarding this examination, please contact me at 215-337-5291.

Sincerely,
