

NOTICE OF VIOLATION

Bothwell Regional Health Center
Sedalia, MO 65301

License No. 24-16275-02
Docket No. 030-12641

During an NRC inspection conducted on March 30, 1994, violations of NRC requirements were identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C, the violations are listed below:

1. 10 CFR 35.59(d) requires that a licensee retain records of leak test results for five years, and that the records contain the signature of the Radiation Safety Officer.

Contrary to the above, records of leak test results since the previous inspection did not contain the signature of the Radiation Safety Officer.

This is a Severity Level IV violation (Supplement VI).

2. 10 CFR 35.641(c) requires a licensee to retain a record of the radiation measurements made following installation of a source for the duration of the license. The record must include, among other things, the signature of the Radiation Safety Officer.

Contrary to the above, the survey report which was completed following the most recent source installation and dated June 1993 did not include the signature of the Radiation Safety Officer.

This is a Severity Level IV violation (Supplement VI).

Pursuant to the provisions of 10 CFR 2.201, Bothwell Regional Health Center is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, Region III, 801 Warrenville Road, Lisle, Illinois, 60532-4351, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an order or a demand for information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

MAY 04 1994

Dated _____

John D. Jones, Acting Chief
Nuclear Materials Inspection
