FROM: COMMISSIONER CURTISS

SUBJECT: SECY-90-362 - STAFF COMMENTS ON THE CONTINUING NEED FOR A LICENSING REVIEW BASIS DOCUMENT FOR EACH PASSIVE DESIGN

APPROVED DISAPPROVED ABSTAIN

NOT PARTICIPATING REQUEST DISCUSSION

COMMENTS:

I agree with Commissioner Remick's comments, subject to the following additional observations:

- 1) I reserve judgment on the question of whether to proceed with an LRB for the ABB-CE System 80+ design, pending an opportunity to review the comments of the ACRS on this matter and to evaluate this question in the context of SECY-90-353.
- 2) In preparing the revised schedules for agency review of the passive designs, staff should identify the efficiencies that would result from the decision not to require LRBs for these designs, and incorporate those efficiencies in the revised schedules.
