AMENDMENT AND SUPPLEMENT TO APPLICATION
GENERAL INFORMATION - 10CFR50.33

To the Honorable United States Nuclear Regulatory Commission:

The Washington Public Power Supply System ("Supply System") hereby submits this Amendment and Supplement to its Application for licenses under the Atomic Energy Act of 1954, as amended, and the rules and regulations issued thereunder, to own, possess, use and operate a pressurized water nuclear power reactor with thermal core power level of 3800 megawatts at the Supply System's Nuclear Project No. 3 (WNP-3) site near Satsop in Grays Harbor County, Washington, which application for construction and operating license was originally filed on March 5, 1974. The information required by 10CFR50.33 is provided below.

- (a) Name of Applicant. Washington Public Power Supply System
- (b) Address. 3000 George Washington Way, Post Office Box 968, Richland, Washington 99352.
- (c) Description of Business. The Supply System is the applicant for licenses to operate and own (possess title to) the facilities. Pacific Power and Light Company (PP&L), Portland General Electric Company (PGE), Puget Sound Power and Light Company (PSP&L) and Washington Water Power Company (WWP) are applicants for licenses to own (possess title to) the facilities as their interests appear herein.

The Supply System is a joint operating agency and a municipal corporation of the State of Washington organized under Chapter 43.52 of the Revised Code of Washington, as amended. The Supply System is composed of 19 operating public utility districts of the State of Washington and the cities of Richland, Seattle, Tacoma and Ellensburg, Washington. The Supply System is not owned, controlled, or dominated by an alien, a foreign corporation or foreign government. Pursuant to its statutory authority, the Supply System is empowered to acquire, construct and operate plants and facilities for the generation and transmission of electrical power and energy, but as a supply agency does not distribute power or sell at retail. The management and control of the Supply System including Project No. 3, is vested in an Executive Board. The Executive Board consists of five members of the Board of Directors and

Amendment No. 1

10/82

PDR ADOCK 05000508
A PDR

six outside directors. Three outside directors are selected by the Board of Directors, and three directors are appointed by the Governor of the State of Washington. The full Board of Directors has 23 members, one representing each of the Supply System's member utilities, and has the authority to select the inside members of the Executive Board and three of the six outside members of the Executive Board and to terminate existing projects or authorize new projects.

- (d) Location/Names of Supply System Directors and Principal Officers. The Supply System is a joint operating agency and a municipal corporation of the State of Washington. Its principal place of business is 3000 George Washington Way, Richland, Washington 99352. The names and addresses of the Directors and principal officers of the Supply System, all of whom are citizens of the U.S., are as follows:

J. W. Spits Assistant Treasurer	E. 1411 Mission Avenue Spokane, Washington 99202

Pursuant to the Applications of the Supply System dated March 5, 1974 the Nuclear Regulatory Commission ("NRC") issued Construction Permit No. CPPR-154 to the Supply System for the construction of the Supply System's Nuclear Project No. 3 ("WNP-3"). WNP-3 is located in eastern Grays Harbor County, Washington. The location is approximately 3 miles south of the town of Satsop, Washington. The Project will use a pressurized water reactor with a two-loop reactor coolant system. It will be designed for a core power level of approximately 3800 megawatts thermal. The Supply System has full responsibility for the design, construction, testing and operation of WNP-3.

The project will be operated by the Supply System. Seventy percent of WNP-3 will be financed, constructed and owned by the Supply System.

The remaining 30 percent of WNP-3 that is owned by the investor-owned utilities is owned 10% by PP&L, 10% by PGE, 5% by PSP&L, and 5% by WWP.

(i) Class of License Applied For. The Supply System seeks from the Commission.

(1) A Class 103 operating license as defined by 10CFR50.22, authorizing Applicant to own, possess, use and operate WNP-3, for which a construction permit has been issued, said operating license to run for a period of forty years.

(2) Such additional source (10CFR Part 40), special nuclear (10CFR Part 70) and by-product material licenses (10CFR Part 30) and any other licenses as may be necessary and appropriate to the acquisition, construction, possession and operation of WNP-3.

(j) Financial Qualifications. The recent rule change (Federal Register, Vol. 47, No. 62, FR. 13750-13754, March 31, 1982) eliminated review of financial qualifications for utilities seeking to operate an electrical generating facility.

(k) Emergency Plans. Radiological emergency response plans of Washington State and local governmental entities that are wholly or partially within the plume exposure pathway and ingestion pathway Emergency Planning Zones have been submitted under separate cover.

(l) Completion Dates. The WNP-3 construction permit expires on January 1, 1985. The official fuel load date is December 1985. At an appropriate time Applicant will submit a request to amend the construction permit to extend the completion date.

(m) Regulatory Agencies. The Supply System does not engage in the distribution of power to retail customers. It is authorized, among other things, to acquire, construct and operate plants, works and facilities for the generation and transmission of power to utilities. The Supply System does not have "rates," but is reimbursed for the costs of each project by the Participants therein. In any event, as a municipal corporation of the State of Washington, the Supply System is not under the jurisdiction of any regulatory agency having control over "rates and services" incidental to the proposed activity.

The Federal Energy Regulatory Commission, 825 North Capital Street, N.E. Washington, D. C. 20002, has jurisdiction over the wholesale rates and services and/or certian other matters with respect to the four investor-owned utilities, as do or may the following state regulatory agencies, as noted respectively hereinafter:

- Pacific Power & Light Company (1) California Public Utilities Commission, State Building, Civic Center, San Francisco, California.
- (2) Public Utility Commissioner of Oregon, Public Service Building, Salem, Oregon 97301.
- (3) Washington Utilities & Transportation Commission, Highway-Licenses Building, Olympia, Washington 98504.
- (4) Public Service Commission of Montana, 1227 11th Avenue, Helena, Montana 59601.
- (5) Idaho Public Utilities Commission, Statehouse, Boise, Idaho 83720.
- (6) Wyoming Public Service Commission, 217 Supreme Court Building, Cheyenne, Wyoming 82001.
- Portland General Electric Company (1) Public Utility Commissioner of Oregon, Public Services Building, Salem, Oregon 97301.
- Puget Sound Power & Light Company (1) Washington Utilities & Transportation Commission, Highway-Licenses Building, Olympia, Washington 98504
- (2) Public Service Commission of Montana, 1227 - 11th Avenue, Helena, Montana 59601.
- (3) Public Utility Commissioner of Oregon, Public Service Building, Salem, Oregon 97301.
- Washington Water Power Company (1) Washington Utilities & Transportation Commission, Highway-Licenses Building, Olympia, Washington 98504.
- (2) Idaho Public Utilities Commission, Statehouse, Boise, Idaho 83720.

- (n) Restricted Data. No restricted data or other classified information (defense information) is involved in this application and it is not expected that any will become involved. However, in the event that it does, the Applicant will appropriately segregate and safeguard such information and will not permit any individual to have access to Restricted Data until the appropriate United States agency shall have made an investigation and report to the NRC on the character, associations and loyalty of such individual, and the NRC shall have determined that permitting such person to have access to Restricted Data will not endanger the common defense and security.
