Gentlemen:

SUBJECT: CATAWBA NUCLEAR STATION EMERGENCY PLAN, REVISION 90-4

We have completed our review of Revision 90-4 to your Catawba Nuclear Station Emergency Plan dated November 13, 1990. Based on our review, we have concluded that the changes meet the planning standards of 10 CFR 50.47(b) and the requirements of Appendix E to 10 CFR 50. Although this revision has been approved, the Emergency Action Level scheme changes incorporated as Revision 90-2 to the Catawba Emergency Plan have not yet received Commission approval. The determination of adequacy for Revision 90-2 will be provided to you in the near future.

Please be reminded that 10 CFR 50.54(q) requires that proposed changes that decrease the effectiveness of your Emergency Plan shall not be implemented without application to and approval by the Commission. However, changes may be made without Commission approval if such changes do not decrease the effectiveness of the Plan, and the Plan, as changed, continues to meet the standards of 10 CFR 50.47(b) and the requirements of Appendix E to 10 CFR 50. If a change is made without approval, you should furnish copies in accordance with 10 CFR 50.54(q). Also, any changes to the Emergency Plan Implementing Procedures should be made in accordance with the requirements of 10 CFR 50, Appendix E, Section V.

Should you have any questions regarding this letter, please contact Mr. William H. Rankin of our staff at 404-331-5618.

Sincerely,
