 2301 Market Street  
 P. O. Box 8699  
 Philadelphia, PA 19101

Dear Mr. Bradley:

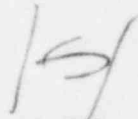

This is in response to your letter of September 13, 1982, regarding NRC Staff's comments on the Limerick Generating Station Physical Security Plan and supercedes our letter of October 18, 1982 on same subject.

Before our review can proceed, we need written responses to the 28 items referred to on page 12 of the enclosure to your letter, and copies of the drawings requested in our letter of July 28, 1982. In regard to the protection of Safeguards Information contained in documents you provide to the NRC, please be advised that NRC personnel are also subject to the requirements of Section 147 of the Atomic Energy Act. Accordingly, your arguments for not submitting the drawings to the NRC are not accepted. In a related matter, we note that the facing page of your September 13 letter does not indicate that it is transmitting Safeguards Information. It should be marked in accordance with NUREG-0794 page 8, Section 4.5.

The enclosures to your letter contain Safeguards Information of a type specified in 10 CFR 73.21 and are, therefore, being withheld from public disclosure.

The reporting and/or recordkeeping requirements contained in this letter affect fewer than ten respondents; therefore, OMB clearance is not required under P. L. 96-511.

Sincerely,

Albert Schwencer, Chief
