

ILLINOIS POWER COMPANY

U-0569

N95-82(10-2-)-6

500 SOUTH 27TH STREET, DECATUR, ILLINOIS 62525

October 25, 1982

Mr. Cecil O. Thomas, Chief
Standardization & Special
Projects Branch
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Thomas:

- References: (1) NRC Memorandum dated May 18, 1982, J. H. Williams to H. Bernard, "Meeting with Illinois Power Company on Equipment Qualification of Safety-Related Equipment"
- (2) Illinois Power Letter U-0513 dated July 16, 1982, G. E. Wuller to H. Bernard, "Clinton Power Station Unit 1 Docket No. 50-461"

Clinton Power Station Unit 1
Environmental Qualification and Seismic
Qualification Review Team Audits

This is to confirm Illinois Power's preparedness for an Environmental Qualification audit by the NRC, as currently scheduled by Reference (1), for January, 1983. The week of January 17, 1983, is suggested. Please provide a proposed schedule for this audit.

The Seismic Qualification Review Team (SQRT) audit is tentatively scheduled for March, 1983. It appears that the eighty-five percent equipment installation criteria will not be satisfied by this date. Further, it is not yet clear when these criteria can be met. Information summaries will continue to be submitted in FSAR Sections 3.9 and 3.10, and seismic/dynamic qualification packages will be completed on a high priority basis. You will be kept advised of progress in this regard.

Should you have any questions concerning the above, please contact me or J. F. Hampton, (217) 424-7008.

Sincerely,

Handwritten signature of J. D. Geier in cursive.

J. D. Geier, Manager
Nuclear Station Engineering
