Gentlemen:

Based on our review of your QC training program and the written examinations developed for all QC requalification examinations in the area of remedial soils, you are hereby authorized to commence remedial soils QC requalification activities.

All work on remedial soils will remain stopped until such time as previously decertified QC personnel are requalified in accordance with your prescribed QC requalification program. At that time, authorized remedial soils work activities may proceed commensurate with the availability of requalified QC inspectors to inspect those activities.

Sincerely,
