Attention: Ms. Betty Wright  
Licensing Officer

Subject: Cylinders Containing "Heels" Natural Uranium to  
Canada

Dear Ms. Wright:

The attached is General Electric Company's original NRC License Application for 2,000 Kgs of Natural Uranium as UF6 "Heels" in cylinders to be exported to Canadian Mining & Energy Corporation (CAMECO), Port Hope, Ontario, Canada. The country of origin source material is Canada.

I have requested an expiration date of 1999, which will permit an expected long running program not to be interrupted by continual revisions in the export license.

Thank you for your efforts in this matter.

Sincerely,

GENERAL ELECTRIC COMPANY

F.D. Flowers, Manager  
Licensing & Traffic  
M/C 512, (408)925-5325
