A turbine load 0 3 reduction was commenced and axial flux distribution (AFD) went out of the target band 0 4 due to automatic control rod insertion. With AFD out of specification, Action State-0 5 ment 3.2.1.a.2 was entered. AFD was restored to within the target band with a total 0 6 of 5 minutes penalty accumulated and the action statement was terminated. The occur-0 7 rence constituted operation in a degraded mode in accordance with Technical Speci-08 fication 6.9.1.9.b.
