RE: License SUB-1010; Docket No. 40-08027  
 Order Modifying License

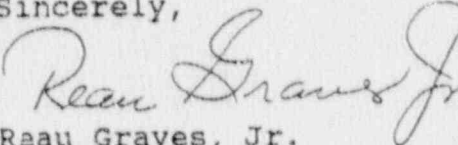

Dear Mr. Martin:

Sequoyah Fuels Corporation (SFC) has completed actions required by the NRC's September 19, 1990 Order Modifying License. I have enclosed a copy of a final report, "Main Process Building Investigation Final Findings Report," which addresses requirements 1 through 5 in the Order. I have previously sent you a copy of SFC's "Facility Environmental Investigation Plan," which responds to requirement number 6 in the Order.

In my letter to you of October 30, 1990, I committed to a prioritized water level monitoring frequency in certain wells that had not then attained static conditions, resulting in delaying our final report. Since the report is now finalized, SFC is discontinuing this special monitoring commitment.

Should you have any questions on this matter, please call me at 918/489-3206, or Lee Lacey at 918/489-3207.

Sincerely,

Reau Graves, Jr.  
 President
