Subject: Yankee Atomic Electric Company Operational
Quality Assurance Program (YOQAP-1-A, Rev. 19A and 20)

Dear Sir:

Enclosed for your information are Revisions 19A and 20 of YOQAP-1-A. The revision addresses organization and programmatic changes to our program for our Operating Plants: Yankee (DPR-3) and Vermont Yankee (DPR-28).

An evaluation has been performed on each change to determine if any requirements contained in the previous NRC Approved QA Program were deleted or made less stringent and, thereby constitute a reduction of commitments. The evaluation used 10CFR50, Appendix B requirements as the basis for concluding that the revised program incorporating the changes continues to satisfy the criteria of Appendix B. All changes are summarized in the attachment.

If you have any questions in regard to this revision, please contact our Mr. Walter K. Peterson of this office.

Very truly yours,

YANKEE ATOMIC ELECTRIC COMPANY

Arthur M. Shepard
Director of Quality Assurance
