Mr. John M. Rooney, Director
Technology Policy Division
Office of Classification and
Technology Policy
U.S. Department of Energy
Washington, D.C. 20585

Dear Mr. Rooney:

Enclosed is an application for an export license (XSOU8701), recently received by the Nuclear Regulatory Commission, for the export of 2,000 kilograms of natural uranium in UF6 form as "heels" in cylinders to Canada for filling and return to the US. Assurances are required that the material will be subject to all of the terms and conditions of an agreement for cooperation. Your assistance in obtaining the necessary assurances will be appreciated.

Sincerely,

Ronald D. Hauber, Assistant Director
for Exports, Security, and Safety Cooperation
International Programs
Office of Governmental and Public Affairs

Attention: Ms. Betty Wright
Licensing Officer

Subject: Cylinders Containing "Heels" Natural Uranium to
Canada

Dear Ms. Wright:

The attached is General Electric Company's original NRC License Application for 2,000 Kgs of Natural Uranium as UF6 "Heels" in cylinders to be exported to Canadian Mining & Energy Corporation (CAMECO), Port Hope, Ontario, Canada. The country of origin source material is Canada.

I have requested an expiration date of 1999, which will permit an expected long running program not to be interrupted by continual revisions in the export license.

Thank you for your efforts in this matter.

Sincerely,

GENERAL ELECTRIC COMPANY
