REFERENCE: (1) DPC Letter, Linder to Eisenhut, LAC-8630,
dated September 29, 1982

Gentlemen:

Reference 1 stated that the TSC/EOF Data Transmission System would become operational in October 1982, with several exceptions. Due to supplier delay in sending needed equipment and inoperability of one of the new parts upon testing, the system will not be operational in October 1982. DPC is working to place the TSC/EOF Data Transmission System in service as soon as possible.

If there are any questions concerning this letter, please contact us.

Very truly yours,

DAIRYLAND POWER COOPERATIVE
