Docket Nos. 50-334  
50-412

Duquesne Light Company  
ATTN: Mr. J. D. Sieber  
Vice President  
Nuclear Group  
Post Office Box 4  
Shippingport, Pennsylvania 15077

Gentlemen:

Subject: NRC REGION I - UTILITY SYMPOSIUM/WORKSHOP ON ENGINEERING'S  
ROLE IN PLANT SUPPORT

We appreciate your response to our letter of October 12, 1990, advising you of our plans to hold the subject meeting. The interest shown to attend has been strong and final plans have been made to hold the symposium/workshop at the Sheraton Valley Forge Hotel, in King of Prussia, Pennsylvania on February 20, 1991 from noon to 5:00 p.m. and February 21, 1991, from 8:00 a.m. to 4:30 p.m. An agenda outline is enclosed.

The three topics discussed in our earlier transmittal will be the breakout session topics. They are: elements of a good engineering organization, licensee's actions with degraded conditions including operability/reportability determinations, and the modification process including 10CFR 50.59 reviews.

A block of rooms is being held at the Sheraton Valley Forge Hotel. Attendees are requested to make their own reservations and the enclosed reservation form provides details.
