Director  
Nuclear Material Safety and Safeguards  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

SUBJECT: Waterford SES Unit No. 3  
Special Nuclear Material License Application  
Docket NO. 70-2946

REFERENCE: Letter W3P82-1335 dated June 1, 1982

Dear Sir:

In the above referenced letter we wrote to formally notify you that our fuel receipt had been delayed until November, 1982. We also requested that the special nuclear material license be in effect from November 8, 1982 until an operating license was received.

This letter is to formally notify you that our fuel receipt date has again been delayed. It has been delayed until January 31, 1983. Consequently, the special nuclear material license for which we have applied is now requested to be in effect from January 31, 1983 until an operating license for Waterford 3 has been received.

If you have any questions concerning this, please feel free to contact us.

Yours very truly,

*L.V. Maurin*
