Uranium Process Licensing Section  
Uranium Fuel Licensing Branch  
Division of Fuel Cycle & Material Safety  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Crow:

This is to inform you that Exxon Nuclear Company, Inc. plans to install a scrubber system in the Line 2 conversion system similar to that currently installed in the Line 1 system. This installation has been discussed during various conversations with you and with Mr. George Bidinger of your staff. The current schedule calls for physical installation during a plant outage during the November-December time frame of those equipment pieces requiring a system outage. Any additional work such as instrument calibration and system testing not completed during the outage will be completed during the first quarter of 1983.

Very truly yours,

*C. W. Malody*
