Docket Nos. 50-348, 50-364  
License Nos. NPF-2, NPF-8

Alabama Power Company  
ATTN: Mr. W. G. Hairston, III  
Senior Vice President  
Nuclear Operations  
40 Inverness Center Parkway  
P. O. Box 1295  
Birmingham, AL 35201

Gentlemen:

SUBJECT: NRC INSPECTION REPORT NOS. 50-348/90-30 AND 50-364/90-30

This refers to the Nuclear Regulatory Commission (NRC) inspection conducted by W. M. Sartor, Jr. on October 22-25 and 31, 1990. The inspection included a review of activities authorized for your Farley facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed Inspection Report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

Your attention is directed to the exercise weakness identified in Paragraph 3 of the enclosed Inspection Report. As required by Section IV.F of Appendix E to 10 CFR Part 50, any weakness that is identified shall be corrected. Accordingly, please advise us, within 45 days of the date of this letter, of the corrective action you have taken, or plan to take, showing the estimated date of completion with regard to this exercise weakness. With regard to the earlier identified and unresolved issue concerning activation timeliness for your emergency response facilities, we will be contacting you in the near future to arrange a meeting for the purpose of resolving this matter.

In accordance with 10 CFR 2.790(a), a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

Should you have any questions concerning this letter, please contact us.

Sincerely,

*Benjamin M. Malott for*

J. Philip Stohr, Director  
Division of Radiation Safety  
and Safeguards
