ATTN: Mr. Jody Dean  
General Manager  
4405 Marketing Place  
Groveport, OH 43125

License No. 34-19769-04  
Docket No. 030-20834

Gentlemen:

This refers to the routine safety inspection conducted by Mr. J. L. Lynch of this office on December 17, 1990 of activities authorized by NRC Byproduct Material License No. 34-19769-04 and to the discussion of our findings with you and Mr. K. Kohler at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, independent measurements, and interviews with personnel.

In addition to the above areas, the inspector examined actions described in your letter dated March 22, 1989, regarding apparent violations found during our February 14, 1989, inspection. We have no further questions regarding these matters.

No violations of NRC requirements were identified during the course of this inspection.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter will be placed in the NRC Public Document Room.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

William H. Schultz, Chief  
Nuclear Materials Safety  
Section 1
