

OCT 29 1982

Docket Nos. 50-266  
and 50-301

Wisconsin Electric Power Company  
ATTN: Mr. C. W. Fay  
Assistant Vice President  
231 West Michigan Street  
Milwaukee, Wisconsin 53201

Gentlemen:

We have received a copy of the following applications which were filed with the Office of Nuclear Reactor Regulation (ONRR) for review in connection with the Point Beach Nuclear Plant, Unit Nos. 1 and 2.

1. A May 27, 1982 request for Technical Specification changes regarding steam generator replacement for Unit No. 1. A Class III fee (\$4,000) was remitted with this request pursuant to 10 CFR 170.22.
2. A September 30, 1982 request for Technical Specification changes regarding spent fuel pool poison surveillance and PORV operability for Unit Nos. 1 and 2. A Class III fee (\$4,000) and a Class I fee (\$400) were remitted with this request pursuant to 10 CFR 170.22.

The ONRR staff have provided data to us regarding fees for the above items. Based on information provided, it has been determined that:

1. A Class IV fee (\$12,300) is appropriate for item 1 above since the review will involve consideration of several safety issues (physical security, on-site storage of steam generator components, steam generator replacement, crane modification) plus the issuance of an extensive Environmental Impact Appraisal.
2. A Class III fee (\$4,000) and a Class II fee (\$1,200) are applicable to item 2 for one unit since the review will involve consideration of a single safety issue and an administrative or pro forma change and two duplicate fees (\$800) for the other unit.

PDR ADDCK 05000266  
P PDR

In conclusion, it is requested that your Company remit a sum of \$9,900 to this office for items 1 and 2 above. If the ONRR staff's final review of these applications reveals that these fees are not correct, you will be notified and any necessary adjustments will be made.

Sincerely,

Original Signed by:
