

OCT 29 1982

Boston Edison Company  
ATTN: Mr. A. Victor Morisi, Manager  
Nuclear Operations Support Department  
25 Braintree Hill Park  
Rockdale Street  
Braintree, MA 02184

Gentlemen:

We have completed a review of certain applications for license amendments which your Company filed with the Office of Nuclear Reactor Regulation (ONRR) for Pilgrim Nuclear Power Station. The purpose of this review was to determine what fees pursuant to 10 CFR 170.22, if any, are due the USNRC, and what refunds might be due your Company for these applications. In this connection, enclosed is a list which shows the application dates, fees paid, fees that are applicable, and ONRR's fee determination on each of the applications.

In connection with item 5 of the enclosed list, it has been determined that fees should not be charged for deletion of non-radiological aquatic LCO's and other non-radiological aquatic monitoring requirements in cases where licensees have an effective NPDES Permit. On this basis, we have concluded that an exemption, pursuant to 10 CFR 170.11(b), from the fee requirements is authorized by law and is hereby granted for your June 14, 1982 ETS changes.

Based on the amounts your Company paid and the ONRR staff's fee determinations, a total of \$4,800 is due your Company. Consequently, we have concurrently authorized the Division of Accounting and Finance to refund the sum of \$4,800 to the Boston Edison Company. Refunds are generally made within a two week period.

Sincerely,

Original Signed by  
Wm. O. Miller
