Mr. W. A. Nixon
Uranium Process Licensing Section
Uranium Fuel Licensing Branch
Division of Fuel Cycle and
Material Safety, NMSS
Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Nixon:

Thank you for your letter of September 23, 1982. May I please trouble you further for a copy of a report which would describe the procedures being employed to collect and stabilize the 20,000 cubic yards of contaminated soil at the AMAX, Inc. property near Parkersburg, West Virginia? After this stabilization project will the storage site be considered adequately decontaminated to be able to be released for public use?

As before, your response will be appreciated.

Sincerely,

Key Drey
