Mr. Jeffrey A. Pohle  
Uranium Recovery Licensing Branch  
Division of Waste Management  
U. S. Nuclear Regulatory Division  
Washington, D.C. 20555

Dear Mr. Pohle:

Re: Source Material No. SUA-1199  
Docket No. 40-8200  
North Rolling Pin Project

In May, 1980, a proposed program to complete groundwater restoration and surface reclamation of the North Rolling Pin Site was submitted to the U. S. Nuclear Regulatory Commission (NRC) and to the Wyoming Department of Environmental Quality (DEQ). Subsequently, both agencies approved the proposed program, and both agencies approved the resultant groundwater restoration. On May 26, 1982, NRC personnel conducted a confirmatory radiation survey and closeout inspection of the North Rolling Pin Site. Based on the results of the site visit and the confirmatory survey, Mr. R. J. Everett, Chief Material Radiation Protection Section, NRC, recommended that License SUA-1199 be terminated.

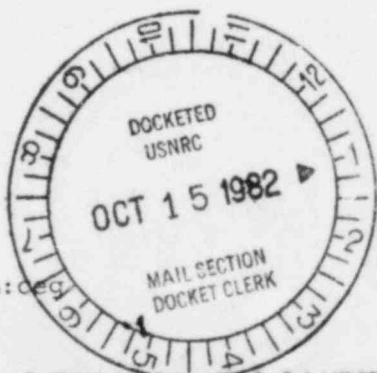

Recently, Cleveland-Cliffs has completed surface reclamation (recontouring, mulching, reseeding, etc.) at the site and has completed the restoration and reclamation program per the agreements with the NRC and the DEQ. Cleveland-Cliffs requests that Source Material License No. SUA-1199 be terminated.

Your timely consideration of this matter would be appreciated. If you should have any questions or require additional information, please contact me personally at your earliest convenience.

Sincerely,

CLEVELAND-CLIFFS
