

OCT 14 1982

Docket No. 50-219

Oyster Creek Generating Station
ATTN: Mr. Peter B. Fielder
Vice President & Director
P.O. Box 388
Forked River, New Jersey 08731

Gentlemen:

We have received a copy of your application dated August 20, 1982 (Change Request No. 111), which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review. This application requested a change in the storage capacity of the spent fuel storage facility to allow the storage of 2600 fuel assemblies for the Oyster Creek Generating Station. A Class III fee (\$4,000) was remitted with your application pursuant to 10 CFR 170.22.

Based on information provided by the ONRR staff as the result of their preliminary review of your application, it has been determined that a Class IV fee (\$12,300) is appropriate for this request since the review will involve consideration of a complex issue and will require the issuance of an Environmental Impact Appraisal. Therefore, your company should remit the additional sum of \$8,300 to this office. If the ONRR staff's final review of your application reveals that this fee is not appropriate, you will be notified and any necessary adjustments will be made.

Sincerely,

Original Signed by:
