

OCT 20 1982

Docket No. 50-267

Public Service Company of Colorado
ATTN: Mr. O. R. Lee
Vice President, Electrical Production
P. O. Box 840
Denver, Colorado 80201

Gentlemen:

We have received a copy of your application dated September 14, 1982, which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review. This application proposed certain Technical Specification changes regarding staff working hours and to reflect current organization at the Fort St. Vrain Nuclear Generating Station. Fees pursuant to 10 CFR 170.22 were not remitted with your application since it was requested by the USNRC and the organizational changes are for clarity.

Based on information provided by the ONRR staff as the result of their preliminary review of your application, it has been determined that a Class II fee (\$1,200) is appropriate for the September 14 application since the changes will be administrative or pro forma in nature. Therefore, you should remit the sum of \$1,200 to this office. If the ONRR staff's final review of your application reveals that the Class II fee is not appropriate, you will be notified and any necessary adjustments will be made.

Although your September 14 application was requested by the USNRC, it is not exempt from fees under the provision of Footnote 2. When applications such as this one are requested by the USNRC for the purpose of enhancing the safe operation of a nuclear facility or to correct a problem or potential problem relating to operation of a facility, they are not exempt under Footnote 2 unless specifically ordered pursuant to 10 CFR 2.204.
