Dear Mr. Utley:

Subject: Radiological Effluent Technical Specifications (RETS)

Re: Brunswick Steam Electric Plant, Unit Nos. 1 and 2

Members of our staffs met recently to discuss the draft RETS forwarded by your September 2, 1982 letter, your draft Offsite Dose Calculation Manual (ODCM), and your Process Control Program (PCP) Plan. It was agreed at that meeting that you would submit your final RETS in the form of a license amendment request and your final ODCM by December 15, 1982. It was further agreed that you would proceed with your PCP, as described, unless and until we advise you of any changes that we may consider to be necessary.

If your understanding of this matter is different than discussed above, please inform us in writing within 30 days of receipt of this letter.

Sincerely,
