SUMMARY

Scope:

This routine, announced inspection entailed a review of procedures, records, operations, and physical inventory for use, control and accountability of special nuclear material.

Results:

No violations or deviations were identified. The licensee was not including all MC&A operating procedures in their periodic reviews. This issue is being investigated by the resident inspectors and will be addressed in their next inspection report (50-413, 50-414/90-30).
