Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Denton:

In the Matter of the) Docket Nos. 50-259
Tennessee Valley Authority) 50-260
50-296

By my letter to you dated September 1, 1982 we informed you of the various types of containers we are using for storage of Safeguards Information. The following is a brief description of another type of repository which we believe is fully adequate that is in use at the Browns Ferry Nuclear Plant.

Three (3) - Schwab, two-drawer, fire-resistant locking file cabinets. Catalog No. 24-9001. The locking mechanism is a Sargeant & Greenleaf four position, R6730 combination lock.

This has been discussed with D. McQuire of Region II and K. McConnel of NMSS.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
