Re: Lisbon Facility  
License SUA-1119  
Docket No. 40-8084

Dear Mr. Hall:

Rio Algom Mining Corp. requests an amendment to the above referenced license to delete license condition 45 (D). This condition requires a 25 foot tailings beach during normal milling operations.

Due to current tailings reclamation activities and the freeboard requirements as stated in license condition 45 (B), this condition is no longer applicable. The deletion of this item was previously discussed with Mr. Dana Ward of your staff and Mr. Marvin Freeman on November 13, 1990.

If you have any questions or need further information please contact me at (405) 842-1773.

Sincerely,

*Bill Ferdinand*
