Re: Control No. 06055

Dear Sir:

The phase of our operation which necessitated the use of the nuclear soil tester was completed in the early part of August, 1982. Since we had no further use for the tester, it has been returned to our original supplier, Ascor, Inc. in St. Louis. They are, of course, properly licensed. This action should correct the noncompliance mentioned in your letter of September 8, 1972.

For verification of the return, you may contact Mr. John Flint of Ascor, Inc. (314-569-0401). Please contact this office if you have any further questions. Thank you.

Sincerely,

*Tom Wheeler/sh*
