RE: LICENSE NO. 12-13837-01

Gentlemen:

Please amend this license to modify the maximum amount of licensed material with half-life greater than 120 days that may be possessed in any form to 10^3 times the applicable quantities of Appendix C of Part 20 or the quantities authorized in items 6, 7, and 8A of Amendment 22 dated December 5, 1988, whichever is less, except for tritium for which we are requesting a possession limit of one curie. (For combinations of isotopes with half-lives greater than 120 days, R divided by 10^3 is less than or equal to 1 [unity rule] where R is defined as the sum of the ratios of the quantity of each radionuclide to the applicable value in Appendix C.)

Our check for the amendment fee of \$120.00 is enclosed. If you have any questions or require any additional information, please contact me at 708-420-5222.

Sincerely,

Terry W. Liaboe
