Re: License Applications

Dear Mr. Null:

As requested in our telephone conversation of this date, attached is a list of the PSI offices in Region III for which a radioactive materials license application has been made. Included in the list are the names of the respective Radiation Safety Officers and Certifying Officials for each office.

Also attached is a copy of PSI's response to your letter dated 4/24/90, regarding the PSI offices in Lima, Ohio, and Joplin and Springfield, Missouri.

Should you have any questions, please do not hesitate to contact me.

Sincerely,

PROFESSIONAL SERVICE INDUSTRIES, INC.

John T. Thornton

Re: License No. 12-16941-01
Control Number 88567

Dear Mr. Null:

Professional Service Industries, Inc. (PSI) is in receipt of your letter dated 4/24/90, regarding locations currently listed on USNRC Radioactive Materials License No. 12-16941-01, and their pending license applications. The following is submitted to clarify the status of the Joplin, Lima and Springfield (MO) locations:

1. PSI's Joplin office is located at the intersection of Joplin and Wall Streets in Joplin, Missouri. The application for Joplin's NRC license lists the facility's street address as 620 Joplin Street because the radioactive materials storage unit is actually located on the Joplin Street side of the building. The facility has not moved to a new location.
2. The street address of PSI's Lima office has been changed from 2523 Shawnee Road to 3739 Shawnee Road by the local municipality. The facility has not moved to a new location.
3. The PSI office in Springfield, Missouri, has been closed. The office does not require a radioactive materials license. A facility "close-out" survey has been performed, and a copy of the report is attached.

Should you have any questions, or if I may be of assistance, please do not hesitate to contact me.

Sincerely,

PROFESSIONAL SERVICE INDUSTRIES, INC.

David S. Price
Radiation Safety Director

Gentlemen:

This letter is in regards to Professional Service Industries, Inc. request for termination of NRC License Number 12-16941-01 and the subsequent issuance of new NRC Licenses to those locations currently identified on the above mentioned license.

It has come to our attention that the following locations (as identified on License Number 12-16941-01) have not submitted an application for a new NRC License:

1. 2523 Shawnee Road
Lima, Ohio
2. 614 Wall Street
Joplin, Missouri
3. 2332A East Division Street
Springfield, Missouri

Please confirm that you do not wish for these locations to maintain their own license. Also, identify where the gauges that are currently being used at these locations will be transferred to upon termination of NRC License Number 12-16941-01.

We will continue our review of your application upon receipt of this information. Please reply in duplicate, within 30 days, and refer to Control Number 88867.

Upon failure to file an answer within the specified time, we will consider that you have abandoned your request and will void this action. This is without prejudice to resubmission of the application.

If you have any questions or require clarification on any of the information stated above, you may contact us at (708) 790-5625.

Sincerely,

Original Signed By

Re: License No. 12-16941-01
Termination request

RECEIVED
MAR 19 1990
MAR 19 1990

Dear Mr. McCann:

Professional Service Industries, Inc. requests termination of License No. 12-16941-01 at the time of the concurrent issuance of the multiple licenses that will collectively take its place.

In a telephone conversation with Eli Port, you requested a listing of the license applications that would be submitted, to permit concurrent application review and issuance of the licenses. Attached is a summary of the applications submitted to Regions I through III; no PSI offices in USNRC-jurisdiction states in Region IV and V use licensed material at this time.

I know that submission of a "Certificate of Disposition of Materials" is typically required, but since disposition does not take place until possession is authorized by the new licenses, I was at a loss as to how to comply with this requirement at this time. It may not be applicable in this case, but if so, I will submit one later, at your request.

It is my understanding that an amendment fee is not required to terminate a license. If this is incorrect, or if additional information is required for termination of License No. 12-16941-01, please let me know.

Sincerely,

PROFESSIONAL SERVICE INDUSTRIES, INC.
