September 15, 1982

U. S. Nuclear Regulatory Commission
 Division of Material Licensing
 Washington, D.C. 20555

Gentlemen:

As an industrial radiographer, I must periodically return sources to the vendor. For this reason, I would like to register as a shipper of the Technical Operations' Model 660 gamma cameras. Technical Operations' certificate of compliance number is 9033 for this exposure device.

Thank you for your attention in this matter.

Sincerely,

A handwritten signature in cursive script that reads "Terry Bruner".

Mr. Terry Bruner
 President and Radiation Safety Officer
 35-17961-01
