Subject: Maine Yankee Station Security Plan

Gentlemen:

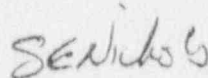

Please find enclosed six copies of changes to the "Maine Yankee Atomic Power Station Security Plan".

These changes reflect the relocation of Camera #6 and the change in camera numerical designation. Camera #6 located on the south side of the Staff Building has been renumbered Camera #7. This Camera was relocated to eliminate environmental problems and to expand the camera's observation capability.

Based on an overall evaluation of the changes made to the MYAPS Security Plan, it has been determined that the effectiveness of the Security Plan has not been decreased; therefore, the changes are being submitted under the provisions of 10 CFR 50.54(p).

The enclosures to this letter contain SAFEGUARDS INFORMATION of a type specified in 10 CFR 73.21 and shall be protected against unauthorized disclosure. When separated from the enclosures, this letter may be decontrolled.

Very truly yours,

S. E. Nichols, Manager
Nuclear Engineering & Licensing
