dated June 28, 1990. (LIC-90-0429)

Gentlemen:

SUBJECT: Application for Amendment of Operating License

Enclosed please find Omaha Public Power District's (OPPD) "Application for Amendment of Operating License" which seeks to amend the Fort Calhoun Station Unit No. 1 Technical Specifications. The changes requested are to add the Hydrogen Purge System to the Technical Specifications. This application is transmitting proposed wording which more closely resembles wording in Standard Technical Specifications for the Modification of Minimum Requirements transmitted in Reference 2. In addition, OPPD respectfully requests 60 days from the date of issuance to implement these changes.

Attachment A contains a markup reflecting the requested changes of the Technical Specifications. Attachment B provides a Discussion, Justification and No Significant Hazards Consideration Analysis, for the changes requested.

If you have additional questions, or require further information, please do not hesitate to contact me or members of my staff.

Sincerely,

W. G. Gates
